EDUCATION

Gayatri Vidya Parishad College of Engineering (A)

B.Tech in Information Technology • CGPA: 8.45/10

Visakhapatnam, India

June 2022 – Present

- Core Coursework: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Software Engineering, Machine Learning, Operating Systems (OS), Computer Networks, Wireless Sensor Networks, Cloud Computing, Web Development, Cryptography, Database Management Systems (DBMS).

EXPERIENCE

CSIR-CRRI

Research Intern

Delhi, India

Apr 2025 – May 2025

- Built a real-time Road Safety Scoring System using YOLOX, OpenCV, and Streamlit.
- Implemented ROI filtering to improve detection precision and safety analytics.

Infosys Springboard

Project Intern

Remote, India

Jan 2025 – Apr 2025

- Engineered cheque automation pipeline with OCR and Python, reducing manual entry by 25%.
- Developed AI-powered form processing tool deployed via Streamlit.

PROJECTS

Counseling Forms

- Digitized academic submissions with MongoDB, Express, React, and Node.js.
- Developed a 1:1 digital replica of the physical counseling form used by faculty to review students' grades.
- Implemented role-based access control: Super Admin (HOD) creates Admins, Admins (faculty) create Users (students), and users can only access the system during allotted time windows set by Admins.

Event RSVP (MERN)

- Built an RSVP system using MERN stack with token-based authentication; also developed an alternate version using Java Servlets.
- Designed project architecture before implementation; created and executed multiple test cases to validate workflows.
- Utilized Postman for API testing, ensuring robust endpoint validation and smooth integration.
- Tech Stack: MongoDB, Express.js, React.js, Node.js, Postman.

Road Safety Scoring System

- Python-based system analyzing dashcam footage using YOLOX and ByteTrack for safety scoring.
- Achieved 65–70% accuracy; limited by small training datasets.

SKILLS

Languages: Python, C, JavaScript, HTML5, CSS3

Frameworks: React.js, Node.js

Tools: Git, GitHub, Docker, Netlify, Streamlit, Postman

Libraries: NumPy, Pandas, TensorFlow

Database: MongoDB, MySQL, SQLite

ACHIEVEMENTS

- Held leadership role as Cybersecurity Lead at GDG GVPCE; organized 5+ cybersecurity events impacting 100+ students.
- Deployed real-time Road Safety Scoring System at CSIR-CRRI with YOLOX and OpenCV for traffic analytics.
- Top 2 finalist at DTI Ideathon 2024 for MERN innovation platform.
- Leading counseling digitization system; 60% backend/frontend complete in MERN.
